250 Connecticut Ave
Atlanta, GA 30307
October 21, 1999

To Whom It May Concern:

1

I live in the city of Atlanta directly across Dekalb Ave from the CSX tracks upon which the nuclear waste would be transported. I was horrified to hear that such a plan exists for such a populated, urban area. The neighborhoods directly around the tracks includes public schools, a public housing project, a private college, private schools, playgrounds, and the homes of countless families. I assume there are neighborhoods like this on the proposed route in Chicago, Chattanooga, St. Louis, Kansas City, and all the other cities as well. Accidents do happen. Please do not put us at risk.

Sincerely,

Nancy Napier
